Use **GMAIL**[®]
safely

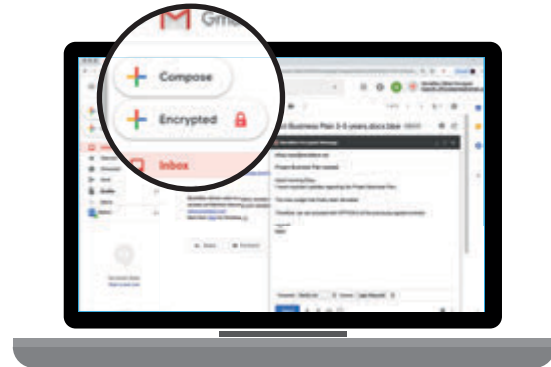

Encryption of messages in Gmail®

Google Chrome plug-in to protect your e-mail

With Gmail Encryptor, the confidentiality of your e-mails is ensured even in your personal account.

Thanks to this special plug-in, you can protect e-mails according to the rigorous **BooleBox encryption system**.

Gmail Encryptor gives you also the option of **revoking access permissions**. No one will be able to intercept your e-mails or access your sensitive information without your consent (not even Google!).

PROTECTED E-MAILS AND ATTACHMENTS

Your Gmail account has never been so secure

MILITARY-GRADE ENCRYPTION

AES 256-bit military standards designed to protect confidential communication

ACCESS REVOCABILITY

For the complete control of your e-mails
