

SharePoint Encryptor

With SharePoint Encryptor, you can protect the sensitive data archived in your Microsoft SharePoint libraries with military-grade encryption

- ✓ **ENCRYPTION OF RESOURCES ARCHIVED IN ONLINE LIBRARIES**
- ✓ **ADVANCED PROTECTION**
- ✓ **PERFECT INTEGRATION**

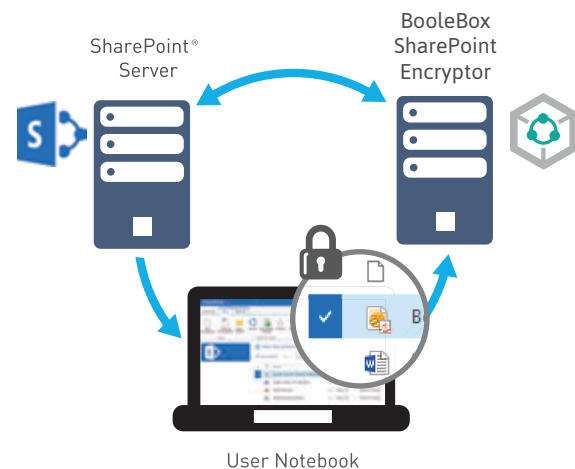

Use Microsoft®
SharePoint® safely

Ensure advanced protection for SharePoint®

With SharePoint Encryptor you can secure sensitive information and trace all the authorized user operations in your Microsoft SharePoint® libraries

Integrated into SharePoint® web user interface, the connector allows users to apply the granular protection of BooleBox to the data available in SharePoint®, including the possibility:

- To share, view and edit files without having to download them
- To download/upload files from their own space to SharePoint® environment and freely encrypt/decrypt them
- To open encrypted files through local Microsoft® Office® applications

 **ENCRYPTION OF RESOURCES ARCHIVED IN ONLINE LIBRARIES**

 **ACTIVITY LOGS**
